About Company :

After thorough research and understanding the customer requirement, **ROCKFORD ABRASIVES** has come with "**EAGLEGLOW**" metal polishing & finishing compound bars and wheels. **ROCKFORD ABRASIVES** has created niche in the field of compounds to the clients. Compounds and buffing wheels are available in unique quality, strong construction & other technical specification. Offered range is made by using optimum quality raw material & sophisticated technology in accordance with the standards of manufacturing unit. We have been able to carve a niche in this highly competitive market within a short span of time. Our customers can buy these products from us at leading prices. Tight specifications for surface area, as well as very narrow particle size distributions & well defined top cuts, ensure the consistency of "**EAGLEGLOW**" polishing compounds.

Why EAGLEGLOW :

- 1) Long Lasting High Glass Mirror Shine Finish.**
- 2) Reduce buffing time:** **EAGLEGLOW** use world's best abrasives in the product, so it reduces the buffing and polishing time, which results in high production and less power consumption per piece.
- 3) Less Electricity :** Less pressure is required to be applied, so less wear and tear of buffing wheels and less power consumption.
- 4) Less Material consumption :** **EAGLEGLOW** compounds are required to be applied in very less quantity. Once applied, then not required to apply very frequently like other compounds. This will reduce costs by saving compounds and also save time of applying compounds frequently.
- 5) Increase Production :** The result of all the above measures will Increase your production increase too. When the customer calculates all this they will reduce their buffing cost by 35-40% with highly improved results. So indeed an optimal productivity will be achieved.
- 6) Prevent Work-Piece From Heat.**

Product Range :

Black Emery

- Filled with emery minerals to give It top notch fast cutting action qualities.
- Removes scratches, small pits, plating, and paint.
- Removes rust scale, antiquing, carbon, heavy tarnish and sooty deposit from metallic surfaces.
- **EAGLEGLOW** black emery is known for its less consumption, low residue leftover.

Pink Lightning

- Our specially invented finishing compound for power cutting and break lining.
- Provides a great level of cutting edge to buffing wheel, giving a brilliant shine when finished.
- Gives shiny and clean surface.
- Removes abrasive marks.
- It provides both merits of cutting and shining at the same time resulting in a high gloss surface.

A Quality Product from Eagle House

Green Stainless

- Provide a high luster mirror shine finish.
- Provides long lasting bluish shine.
- EAGLEGLOW GREEN STAINLESS is renowned for Increasing productivity by eliminating rejections and re-polishing issues and thus Less buffing steps to follow.
- It requires no rework.
- Prevents work-piece from heat.

Yellow Tripoli

- EAGLEGLOW YELLOW TRIPOLI helps in fast cutting action with low pressure.
- It produces uniform and flat surface.
- High productivity rate.
- Helps in removing grinding lines.

Red Rouge

- EAGLEGLOW RED ROUGE is specialty invented for brass, copper & aluminum surface.
- Its major advantage lies in its easy applicability.
- Its helps in getting a scratch free surface in very less time with optimum utilisation.

White Sunshine

- EAGLEGLOW specially innovated compound for Plastic, Fiber, Acrylic, Bakelite & Melamine surfaces.
- It is quick and easy to use for getting a smoother and shinier surface.
- Helps in getting line-free and deep gloss surface.
- Used in fine glazing or blue glazing high tensile strength or low tensile strength metals and alloys.

Packing :

- Weight 280 Grams per Bar - 6 Dozen Bars in each case.
- Weight 390 Gram per Bar - 6 Dozen Bars in each case.
- Weight 800 Grams per Bar - 35 Bars in each case.

Vacuum Packed in Cartoon and PP Bag.
